

Facility support services, one accountable prime.

Halo Facility Services delivers recurring and on-call facility services for commercial and public-sector clients across Southern Utah and Texas — performed by vetted, insured local crews under our supervision, quality control, and documentation.

Core competencies

- Janitorial & custodial services, day porter
- Grounds & landscape maintenance, irrigation
- Pressure washing, parking-area sweeping, windows
- Handyman, punch-list & minor repair
- Grease-trap / FOG compliance coordination
- 24/7 emergency response & dispatch
- Licensed-trade coordination (HVAC, plumbing, electrical, roofing) through partner contractors

Differentiators

- **Single point of accountability** — one contract, one invoice, one dispatch line for all trades.
- **Technology-run back office** — dispatch, scheduling, QC photo logs, COI tracking, and reporting run on the Omnira operations platform.
- **Written response-time SLAs** with self-executing credits.
- **Two-deep crew coverage** on every scheduled trade.
- **Documented compliance** — subcontractor COIs verified current, additional-insured, on file before dispatch.

Company data

Legal name	Halo Facility Services (entity registration in process under the Halo partnership)
Headquarters	St. George, Utah
Service area	Southern Utah (Washington & Iron Counties) · Texas: Dallas-Fort Worth, Austin, San Antonio
Structure	Utah limited liability company
SAM.gov	Registration in process (UEI/CAGE pending)
Insurance	CGL for facilities operations; subcontractors carry CGL \$1M + workers' comp with additional-insured status

NAICS codes

561210	Facilities Support Services
561720	Janitorial Services
561730	Landscaping Services
561790	Other Services to Buildings & Dwellings
238990	All Other Specialty Trade Contractors

Engagement model

We begin with a documented baseline (site walk or vendor audit), then a defined 90-day pilot scope with written service levels, then term agreements. Public-sector clients receive the same structure: measurable SLAs, photo-documented quality control, consolidated invoicing to your account codes, and one responsible party.
